

100% Pure New Zealand

THE TIN SHED AND ITS ROLE IN SUSTAINABLE TOURISM AND RETAILING

The Tin Shed is fortunate to be situated in a stunning location within our beautiful land, Aotearoa, New Zealand. Our goal is to look after this land – ensuring it is pure, clean and green for the generations that follow us.

WHAT ARE WE DOING TO ACHIEVE OUR GOAL?

- We are selling products that are made in here in New Zealand from renewable natural fibres such as wool, mohair, alpaca and angora.
- We sell possum fur products. Possums can be legally trapped in New Zealand as they are an introduced pest destroying our native forests and birds.
- We recycle and compost waste generated on and around The Tin Shed and attempt to minimize the waste sent to landfill.
- We are working towards the introduction of more environmentally friendly packaging.
- We have planted New Zealand native plants around our land to encourage native birds, reptiles and insects.

HOW CAN YOU HELP TOO?

- Purchase our merino, possum fur and other products made in New Zealand from renewable resources.
- Dispose of your rubbish in the appropriate recycling, compost or landfill bins.
- Ask for no packaging on your goods or request paper or purchase one of our Tin Shed enviro bags.

WANT TO KNOW MORE ABOUT WHAT WE'RE DOING?

- Ask a staff member for one of our green sheets.
